ILLINOIS TOLLWAY PREPARED FOR WINTER SNOWSTORM

Drivers reminded to reduce speed, allow extra time to safely complete trips

DOWNERS GROVE, IL – The Illinois Tollway is deploying its full fleet of 196 snowplows in response to a winter storm moving into the area Monday evening, January 8, and continuing through Tuesday, January 9, bringing heavy, wet snow that could affect roadway conditions and reduce visibility during Tuesday morning and evening commutes. The Tollway’s Snow Operations Center will be open to manage the agency’s systemwide response to the storm.

“During this storm and throughout the winter, our highest priority will be keeping our customers safe – whether that means quickly deploying our fleet of snowplows whenever storms strike to clear the snow and ice from our roads or by rapidly responding to calls for assistance from drivers whose vehicles have become disabled or stranded on our system,” said Illinois Tollway Executive Director Cassandra Rouse. “We’re reminding our customers to help us protect them during severe weather by slowing down, allowing extra time to reach their destinations and by giving our plows the extra room they need to do their work.”

To respond to this winter storm, the Illinois Tollway has a full complement of more than 200 staff and supervisors working per shift – around the clock, if necessary – to keep roadways clear of snow and ice.

The Tollway is fully equipped to maintain roadways across 12 counties in Northern Illinois, including having more than 105,000 tons of road salt in its inventory. The Tollway has used an average of about 57,000 tons salt usage annually over the past eight winters.

Before traveling, to receive real-time information on pavement conditions and roadway incidents, drivers should sign up for Tollway Trip Tweets at twitter.com from the Tollway’s website at illinoistollway.com follow all five Tollway Trips or just the roadways that interest them. The five are: [@94_294_Tollway](https://twitter.com/94_294_Tollway), [@I_90_Tollway](https://twitter.com/I_90_Tollway), [@I_88_Tollway](https://twitter.com/I_88_Tollway), [@I_355_Tollway](https://twitter.com/I_355_Tollway) and [@IL_390_Tollway](https://twitter.com/IL_390_Tollway)

While on the road, drivers whose vehicles become disabled should activate their hazard lights and dial *999 from a cellphone for assistance. Drivers should note the roadway they are using, as well as the direction of travel and nearest milepost or crossroad. For crashes involving property damage only, drivers should report the incident to 630-241-6800 ext. 5042 and continue driving.

The Illinois Tollway reminds motorists the state’s “Move Over Law” **requires** motorists to change lanes or to slow down and proceed with caution when passing any vehicle on the side of the road with hazard lights activated.

Drivers also should use caution when passing snowplows. During heavy snowfall, snowplows often work in tandem to remove as much ice, slush and snow as possible from all lanes at once. When it is safe to pass, the plows spread out and allow traffic to flow around them.

Winter Weather Travel Tips

The Tollway offers the following travel tips to keep safe during dangerously cold weather:

-more-

1. **Be sure your cell phone is fully charged** before heading out.
2. **Be sure tires are properly inflated** during cold weather. Tires lose a pound of pressure for every 10 degrees the temperature drops.
3. **Keep your gas tank at least half full** to avoid gas line freeze-up and ensure that you have extra to account for additional driving time if the weather is unfavorable.
4. **Keep a cold weather safety kit** in your car that includes gloves, boots, blankets, road flares, water and a flashlight with fresh batteries.
5. Stranded motorists should **turn on their emergency lights and remain in their vehicles** until help arrives.
6. Cell phone users should **call *999 motorist assistance** for roadway assistance and note the roadway and direction of travel and nearest milepost or crossroad.

About the Illinois Tollway

The Illinois Tollway is a user-fee system that receives no state or federal funds for maintenance and operations. The agency maintains and operates 294 miles of roadways in 12 counties in Northern Illinois, including the Reagan Memorial Tollway (I-88), the Veterans Memorial Tollway (I-355), the Jane Addams Memorial Tollway (I-90), the Tri-State Tollway (I-94/I-294/I-80) and the Illinois Route 390 Tollway.
